

 <b>Engineering Zone Co.Ltd.</b>	<b>ENGINEERING ZONE CO. LTD.</b>		
	ISM-001	POLICY 5 – STOP WORK AUTHORITY POLICY	Issue Date: 01-Jun-2022
	PREPARED BY <b>QHSE MANAGER</b>		REVIEWED & APPROVED BY <b>CHIEF EXECUTIVE OFFICER</b>

## STOP WORK AUTHORITY POLICY

At ENGINEERING ZONE CO. LTD., it is the responsibility and obligation of all personnel to STOP WORK and communicate the same to the responsible parties (with authority to sustain the work stoppage), if it is perceived as unsafe or if the task is not understood. ENGINEERING ZONE CO. LTD. supports a culture where no one has to prove it's unsafe to stop the job, rather we have to prove that it's safe to start or re-start the job.

All ENGINEERING ZONE CO. LTD., Employees, Contractors, and Visitors have the responsibility, Authority, and Obligation to STOP any operation if they feel that the situation is Unsafe or the work is being performed in an unsafe manner.

Each person entering the work site agrees to comply with the safety rules and procedures that have been instructed to them as part of their job or safety induction. When an employee, contractor, or visitor notifies a supervisor of an unsafe act or condition, it is the supervisor's responsibility to either correct the safety issue immediately or protect the crew from the safety hazard and then develop a corrective action plan to eliminate the hazard.

This policy applies to all aspects of the ENGINEERING ZONE CO. LTD. project. The ENGINEERING ZONE CO. LTD. team will ensure the availability of resources needed to implement this policy, communicate it and ensure that it remains effective and relevant through regular reviews & updates.
